Professional Summary

Electronics and Communication Engineering undergraduate with hands-on experience in RTL Design using Verilog HDL. Skilled in Digital Electronics, combinational and sequential logic, FSM design, and functional verification through simulation. Seeking an entry-level VLSI role in RTL Design, FPGA, ASIC Design, or Verification.

Education

Bengal College of Engineering and Technology — Durgapur, West Bengal
B.Tech. in Electronics and Communication Engineering — ***CGPA: 7/10*** — *Aug. 2023 – Present*

DAV Public School, Sawang — Gomia, Jharkhand
Senior Secondary (class XII) — *2022*

Relevant Experience

Digital Electronics Laboratory
Bengal College of Engineering and Technology

- Designed and verified combinational and sequential logic circuits.
- Implemented multiplexers, flip-flops, counters, and shift registers.
- Built a strong foundation in digital logic design for RTL development.

Projects

Traffic Light Controller | *Verilog HDL*

- Designed an FSM-based Traffic Light Controller and verified it using a testbench.

4-bit Binary Counter | *Verilog HDL*

- Implemented and simulated a synchronous 4-bit Binary Counter using Verilog HDL.

Internship

Vocational Trainee — July 2026 – August 2026
Metro Railway, Kolkata — *Kolkata, West Bengal*

- Completed vocational training in Communication Networks and Power Supply Systems used in Metro Railway operations.
- Studied DC Traction Systems, Tunnel Ventilation, and SCADA Monitoring Protocols.
- Gained practical exposure to railway electrical infrastructure, communication systems, and industrial automation.
- Prepared and presented a project report on Communication Networks and Power Supply System with DC Traction and Tunnel Ventilation using SCADA Monitoring Protocols.

Technical Skills

Programming Languages: C, C++, Verilog HDL, Basic Python, HTML, MATLAB
Core Subjects: Digital Electronics, Digital Logic Design, Microprocessors, Analog Communication
EDA/Development Tools: Visual Studio Code, EDA Playground, MATLAB
Documentation: Microsoft Office (Word, Excel, PowerPoint)
Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Basic Data Analysis

Training & Workshops

Short-Term Training Programme (STTP) — March 2026
Bengal College of Engineering and Technology & The Institution of Engineers (India)

- Completed a five-day training programme on **Recent Advances in Intelligent Systems and Smart Technologies for Core Engineering Applications**.
- Gained exposure to emerging technologies in intelligent systems, embedded systems, and smart engineering applications.
